INTERNSHIP EXPERIENCE

WordPress Developer Intern — EETTI TECH

June 2025 – May 2026

Web Development & WordPress Internship

- Developed and customized business websites using WordPress, Elementor, HTML, CSS, and JavaScript based on client requirements.
- Built responsive page layouts, customized themes, menus, forms, and plugins to align with client branding and usability standards.
- Prepared project documentation, requirement notes, and task reports for internal tracking and client communication.
- Used AI-assisted coding tools for debugging, content structuring, and faster documentation preparation.
- Collaborated with developers and designers to deliver tasks and meet project deadlines on time.

PROJECT EXPERIENCE

Payment Gateway Integration

Personal Project

Frontend: HTML · CSS · JavaScript · React JS

Backend: Express JS · MongoDB

Payment: Razorpay

- Built a full-stack payment application with Razorpay test payments, order creation, payment status handling, and transaction tracking.

E-commerce Website

Portfolio Project

Frontend: HTML · CSS · JavaScript · Bootstrap

Features: Product Listing · Cart · Checkout · Responsive UI

- Developed a responsive e-commerce website with product browsing, cart management, checkout flow, and mobile-friendly pages.

Business Website

Portfolio Project

Frontend: HTML · CSS · JavaScript

Features: Services · Contact Form · WhatsApp · Responsive Design

- Created a modern business website with service sections, lead-focused calls to action, contact options, and responsive layouts.

WordPress Portfolio Website

Portfolio Project

Tools: WordPress · Elementor · Theme Customization

Features: Contact Form · Plugin Setup · Responsive Design

- Designed and developed a personal portfolio website using WordPress and Elementor to showcase projects, skills, services, and contact information with a responsive layout.

CRM & ERP Internal Web Application

Portfolio Project

Frontend: HTML · CSS · JavaScript · Bootstrap

Backend: Laravel · PHP · Role-Based Workflow

Database: MySQL

- Designed a CRM and ERP platform with role-based dashboards, lead tracking, task workflows, client records, and project visibility.

EDUCATION

Bachelor of Computer Applications (BCA)

2023 – 2026
